RESOLUTION NO. 2128-0819

RESOLUTION APPROVING THE UPDATED
SEWER SYSTEM MANAGEMENT PLAN (SSMP)

The Board of Directors of the Stege Sanitary District finds and determines as follows:

A. The California State Water Resources Control Board (SWRCB) adopted Order No. 2006-0003-DWQ on May 2, 2006.

B. This Order establishes statewide General Waste Discharge Requirements (GWDR) for all sanitary sewer systems in California.

C. Pursuant to the statewide GWDR, public agencies that own and operate sanitary sewer systems greater than one mile in length must develop an SSMP, and in accordance with SWRCB requirements, the agency must update, recertify, and have their governing body approve the SSMP every 5 years.

D. The District's SSMP was last certified in August 2014.

In consideration of the foregoing findings and determinations, it is resolved as follows:

The Board of Directors of the Stege Sanitary District hereby approves the updated Sewer System Management Plan (SSMP) – June 2019.
