Collection System Maintenance Worker (I) Recruitment

The Stege Sanitary District is currently accepting applications for the Collection System Worker (I) position. This recruitment is open until the needs of the District are met. For first consideration, apply immediately.

About the Collection System Maintenance Worker

DEFINITION: Under the supervision of the Maintenance Superintendent, the Collections System Worker must perform a variety of duties, including wastewater collection system cleaning and obstacle-clearing work using a high-pressure jet and other specialized equipment; repair and maintain electrical and mechanical equipment; investigate complaints concerning the wastewater collection system; perform maintenance of sewage collection system; operate vehicles and to perform other duties as assigned or required.

ESSENTIAL DUTIES & RESPONSIBILITIES

- Inspects, checks, cleans, maintains, and repairs the wastewater collection system, which includes all pump stations, generator units, pipes, valves, and all other appurtenances found in a complete collection system.
- Enters sewers, manholes, wet wells, and pump stations, observing proper safety precautions; inspects and cleans the interiors of sewers, manholes, wet wells, and pump stations.
- Performs duties as directed in the operation and maintenance of the sewer inspection and cleaning equipment.
- Learns to operate a variety of mechanical equipment and hand tools, such as jet rodders, sectional rodders, tampers, blowers, gas detectors, air compressors, and flow meters.
- Repair and maintain electrical and mechanical equipment such as pumps, motors, switchgear, motor control centers, meters, diesel-driven generator sets, and all other equipment related to the collection system.
- Perform related duties in other departments in the District as needed.
- Assist in the installation and set-up of new equipment.
- Must be able to follow directions and maintain good working relationships with others.
- All other duties as assigned.
- Will be required to work overtime, stand by at night, on weekends, and on holidays.

For the complete job description and application, check www.stegesan.org.

REQUIRED QUALIFICATIONS

- Any combination of training, education, and experience which demonstrates possession of the knowledge and abilities stated above and the ability to perform the duties of the position. A minimum of 2 year experience in performing maintenance work, preferably in a sewage collection system utilizing heavy equipment and power tools.
- High School Graduate or G.E.D.
- Valid California class "B" driver's license with airbrake and tanker endorsement in compliance with Stege driving standards.
- A maintenance Grade I certificate issued by the California Water Environment Association (CWEA) is required within a 1-year period or two testing dates from the date of employment.

BENEFITS
