Transparency Certificate of Excellence Awarded to Stege Sanitary District

El Cerrito, CA — The Stege Sanitary District received the District Transparency Certificate of Excellence by the Special District Leadership Foundation (SDLF) in recognition of its outstanding efforts to promote transparency and good governance.

"This award is a testament to our District's commitment to open government," said, Rex Delizo, District Manager. "Our staff is to be commended for their contributions that empower the public with information and facilitate engagement and oversight."

To receive the award, the Stege Sanitary District demonstrated the completion of essential governance transparency requirements, including conducting ethics training for all Board Members, properly conducting open and public meetings, and filing financial transactions and compensation reports to the State Controller in a timely manner.

The Stege Sanitary District is an independent Special District of the State of California as reorganized under the Sanitary District Act of 1923. The District is a public agency administered by a duly elected five member Board of Directors. The District currently operates and maintains 148 miles of sanitary sewers and two pumping stations serving over 35,000 residents residing within the District boundaries. The mission of the District is "to protect public health and the environment for the communities we serve through planning and operation of a safe, efficient, and economical wastewater collection system."

SDLF is an independent, non-profit organization formed to promote good governance and best practices among California's special districts through certification, accreditation, and other recognition programs.
